

## Immunizations

You can view the immunization data of a patient contributed to the Vermont Health Information Exchange using the immunizations tab or widget on the Patient Charts screen. To begin this process, you will need to navigate to the Patient Charts screen.

### Immunizations tab

The Immunizations tab screen is displayed below.

Summary Immunizations x

Immunization Lot Number

Administered Date: All Print

Immunization	Dose	Body Site	Route	Refused	Refusal Reason	Administered Date	Lot Number	Manufacturer	Source	Source Document

- The Immunizations tab is not included as a default tab on the Patient Charts screen. You can access the Immunizations tab by maximizing the Immunizations widget.
- Search boxes allow you to search by the immunization name and lot number.
- By default, immunizations are sorted in chronological order by most recent reported date. You can sort by clicking on the column headings with arrows next to them. See the Administered Date column above as an example.
- You can print immunizations by selecting the blue [Print](#) link at the top of the tab above source document.

### Immunizations widget

The Immunizations widget screen is displayed to the right.

- The Immunizations widget includes the a summary of immunization data, for additional details you should view in the tab view.
- You can print immunizations by selecting the blue [Print](#) link at the top right of the widget above source.
