INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Vermont Information Technology Leaders, Inc.
South Burlington, Vermont

Opinion

We have audited the accompanying financial statements of Vermont Information Technology Leaders, Inc. (the "Organization"), which comprise the statement of financial position as of June 30, 2026, and the related statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Organization as of June 30, 2026, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Organization and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

118 TILLEY DRIVE, SUITE 202, SOUTH BURLINGTON, VERMONT 05403
PHONE 802.658.1808 FAX 802.658.1779 WEB WWW.CPAVT.COM

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Summarized Comparative Information

We have previously audited the Organizations 2025 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report December 3, 2025. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2026, is consistent in all material respects, with the audited financial statements from which it has been derived.

Net increase in cash and cash equivalents	$ 1,693,738	$ (1,336,232)

See accompanying notes to the financial statements.

(1) History of Organization and Nature of Activities

Vermont Information Technology Leaders, Inc. (the "Organization"), is an independent, not-for-profit corporation exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The exempt purpose of the Organization is to securely aggregate, standardize, and share the data needed to improve the effectiveness of healthcare for Vermonters. The Organization is legislatively designated in Title 18 of the Vermont Statutes Annotated Section 9352 to operate the exclusive Vermont Health Information Exchange (VHIE), which is a secure, statewide data network owned by the State of Vermont that gives healthcare providers in Vermont the ability to electronically exchange and access patient data. The Organization collects and manages patient data, such as demographics, laboratory results, discharge summaries, radiology reports and medication histories from multiple sources, including hospitals, primary and specialty care, federally qualified health centers, home health, long-term care, designated agencies and commercial labs. The Organization is governed by a board of directors that includes representatives of the business community and comprises healthcare consumers, Vermont hospitals, Vermont-licensed clinicians, and health insurers licensed to offer plans in Vermont, as well as individuals familiar with health information technology. Funding of operations is derived through a variety of contracts with the State of Vermont and healthcare-related organizations.

(2) Summary of Significant Accounting Policies

(a) Accounting Method and Financial Statement Presentation

The Organization's financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). The Organization reports information regarding its financial position and activities according to two classes of net assets: net assets with donor restrictions and net assets without donor restrictions. The Organization is also required to present statements of functional expenses and cash flows.

(b) Cash and Cash Equivalents / Credit Risk

The Organization considers all investment instruments purchased with an original maturity of three months or less to be cash equivalents. The Organization maintains bank account balances, which at times may exceed federally insured limits. The Organization has not experienced any losses with these accounts. Management believes the Organization is not exposed to any significant credit risk on cash.

Summary of Significant Accounting Policies (continued)

(c) Allowance for Doubtful Accounts

The Organization's accounts receivable consists primarily of amounts due from agreements and contracts. Receivables are stated at amounts management expects to collect from outstanding balances. The measurement of expected credit losses is based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. Management uses judgment in determining the relevant information and estimation methods that are appropriate in its circumstances. Receivable balances are written off against the allowance if a final determination of collectability is made. The Organization's allowance for credit losses was $0 as of June 30, 2026 and 2025 as management deemed all balances collectible.

(d) Accounts Receivable and Revenue

The Organization uses revenue recognition guidance that provides a single framework in which revenue is required to be recognized to depict the transfer of goods or services to customers in amounts that reflect the consideration to which a company expects to be entitled in exchange for those goods or services.

Revenues are recognized when control of the promised products (e.g., data, reports, access to software or systems) or services are transferred to customers, in an amount that reflects the consideration expected to be received in exchange for those products or services. Control transfers when products are delivered to customers or services are provided to customers because the customer has legal title, a present obligation to pay, and the risks and rewards of ownership. The amount of consideration expected to be received and revenue recognized is generally either a fixed amount for each product or service as identified in the contract or readily estimable based on the completion of milestones and operating targets of the contract.

Accounts receivable represent amounts billed to customers in accordance with the provisions of related contracts. Unbilled accounts receivable consist of amounts for which the revenue recognition criteria has been met, but for which invoicing has not occurred. Billed and unbilled accounts receivable are stated at the amount the Organization expects to collect. If the financial condition of the Organization's customers were to deteriorate, adversely affecting their ability to make payments, or if acceptance of deliverables by the customer was unlikely, allowances would be required. No allowance was required at June 30, 2026 and 2025. Accounts receivable as of June 30, 2026 and 2025 and July 1, 2024, were $633,811, $866,612, and $8,860 with unbilled accounts receivable balances of $1,634,365, $2,813,343, and $2,103,039 respectively.

Deferred revenue represents amounts received from customers for products and services that have not yet been delivered or completed. Deferred balances as of June 30, 2026 and 2025 and July 1, 2024, were $697,249, $801,809, and $1,443,355, respectively.

Payment terms vary by the type of customer and the products or services offered. The term between invoicing and when payment is due is not significant.

Summary of Significant Accounting Policies (continued)

The Organization has two primary categories of revenue: services delivered to customers over time, and products or services delivered to customers at a point in time. Contracts with customers often include promises to transfer multiple products or services to a customer. Determining whether products or services under such contracts are considered distinct performance obligations that should be accounted for separately versus together may require significant judgment.

Accounting for the contracts involves the use of various techniques to estimate total contract revenue and costs. The Organization estimates profits on its contracts as the difference between the total estimated revenue and expected costs to complete a contract. Contract estimates are based on various assumptions to project the outcome of future events over the course of the contract. These assumptions include labor productivity and availability; the complexity of the work to be performed; and the performance of consultants. As a significant change in one or more of these estimates could affect the profitability of the Organization's contracts, the Organization reviews and updates contract-related estimates regularly. If at any time the estimate of contract profitability indicates an anticipated loss on the contract, the total loss is recognized in the period it is identified. Accordingly, management recognized gain on contracts in progress at June 30, 2026 and 2025 of $0 and $192,194, respectively which are shown as expenses on the statements of activities.

Revenues recognized over time - Revenue recognized over time primarily consists of overall performance obligations of ongoing services (e.g., operating the VHIE) that provide the customer continuous benefit over time.

Revenue related to the ongoing services is billed and recognized monthly in a fixed amount as stand-ready performance obligations or as adjusted for service-level agreement (SLA) criteria.

Revenue related to development projects that are performed and satisfied over a longer period of time is recognized over time using costs incurred to date relative to total estimated costs at completion in order to measure progress toward satisfying the performance obligation. Incurred costs represent work performed, which corresponds with, and thereby best depicts, the progress on satisfaction of the performance obligation. Contract costs include labor, consulting costs, software and network costs, and indirect overhead. The Organization recognizes adjustments in estimated profit on the contract under the cumulative catch-up method. Under this method, the impact of the adjustment on profit recorded to date is recognized in the period the adjustment is identified. Revenue and profit in future periods of contract performance are recognized using the adjusted estimate.

Summary of Significant Accounting Policies (continued)

Revenues recognized at a point in time - The majority of revenue recognized at a point in time is for system enhancement projects, including design, development, and implementation projects. Revenues on these performance obligations are recognized when the customer obtains control of the product or service, which is generally upon acceptance of the completed product or service by the customer. Deferred contract costs represent costs incurred in conjunction with progress made toward the completion of these point-in-time deliverables, but for which control has not yet passed to the customer and revenue has not been recognized. Changes in deferred contract costs, which are presented separately to offset period costs incurred in the statement of functional expenses totaled $64,321 and $45,794, respectively for the years ended June 30, 2026 and 2025.

(e) Property and Equipment

Property and equipment are recorded at cost. Depreciation is provided for in amounts sufficient to relate the cost of depreciable assets to operations over their estimated service lives using the straight-line method. Acquisitions of property and equipment in excess of $5,000 per unit or in bulk purchase of similar assets and have an economic useful life of more than one year are capitalized. Leasehold improvements are amortized over the lives of the respective leases or the service lives of the improvements, whichever is shorter.

(f) Functional Allocation of Expenses

Expenses are charged to program and supporting services based on direct expenses incurred and allocation of common expenses. Common costs are allocated based upon related utilization. Specifically, salaries and wages are allocated to each functional expense category based on actual time charged to each category by employees. Employee benefits and payroll taxes are allocated consistently with related salaries and wages. Telecommunications, depreciation, and some networking are allocated based upon relative employee headcount. Substantially all other expenses are directly identifiable to a specific function and are therefore charged directly to each functional expense category.

(g) Income Taxes

The Organization is a not-for-profit organization as described in Section 50l(c)(3) of the Internal Revenue Code (the “Code”) and is exempt from federal income taxes on related income pursuant to Section 50l(a) of the Code. Accordingly, the Organization has not provided for income taxes in these financial statements.

FASB ASC 740, *Income Taxes*, requires entities to disclose in their financial statements the nature of any uncertainty in their tax positions. For tax-exempt entities, tax-exempt status itself is deemed to be an uncertainty, as events could potentially occur to jeopardize their tax-exempt status.

Summary of Significant Accounting Policies (continued)

Management believes the Organization has no uncertain tax positions. The Organization anticipates that it will not have a change in uncertain tax positions during the next twelve months that would have a material impact on the Organization's financial statements. If necessary, the Organization would accrue interest and penalties on uncertain tax positions as a component of the provision for income taxes. The Organization is no longer subject to federal and state income tax examinations by tax authorities for years before the year ended June 30, 2023.

(h) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the period reported. Actual results could differ from those estimates.

(i) Leases

The Organization leases space for operational purposes. As disclosed in Note 5, these leases have been evaluated and determined to be immaterial, both individually and in the aggregate, to the financial statements. Accordingly, such leases have not been recognized under the right-of-use (ROU) model required by Topic 842. Lease payments are expensed as incurred over the lease term.

(j) Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of grantor imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions – Net assets available for use in general operations and not subject to certain grantor restrictions.

Net Assets With Donor Restrictions – Net assets subject to donor, or certain grantor, imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the grantor. Other donor-imposed restrictions are perpetual in nature, where the grantor stipulates that resources be maintained in perpetuity. Grantor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both. There were no net assets with donor restrictions as of June 30, 2026 and 2025.

Summary of Significant Accounting Policies (continued)

(k) Comparative Data

The financial statements include certain prior-year summarized comparative information in total, but not by class. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP. Accordingly, such information should be read in conjunction with the Organization's financial statements for the year ended June 30, 2025, from which the summarized information was derived.

(l) Subsequent Events

The Organization evaluated subsequent events through November 10, 2026, the date the Organization's financial statements were available to be used.

(3) Retirement Plan

The Organization sponsors a 401(k) retirement plan that covers substantially all of its employees. Under the Plan, the Organization matches employee contributions up to 3% of eligible compensation, in addition to 50% of employee contributions between 3% and 5%. The Organizations contributions to the Plan charged to operations for the years ended June 30, 2026 and 2025 were $85,725 and $79,422, respectively.

(4) Line of Credit

The Organization maintains a $500,000 revolving line of credit agreement with TD Bank, N.A., payable on demand. Interest is payable at The Wall Street Journal prime rate plus 1% (7.75% at June 30, 2026). The line of credit is secured by the Organization's cash and cash equivalents accounts. There was no balance outstanding at June 30, 2026 and 2025.

(5) Operating Leases

The Organization leases office facilities in Vermont. In March 2022 the Organization entered into a lease at 600 Blair Park Rd, Williston, Vermont. There is a base monthly rent of $1,750, subject to an annual 3% annual increase, the lease renewed and extended for an additional year until February 2027.

Total rent expense was $25,233 and $25,006, respectively, for the years ended June 30, 2026 and 2025. Future minimum lease payments as of June 30, 2026 are approximately $15,200 for the year ended June 30, 2027.

(6) Liquidity and Availability

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the statements of financial position date, comprise the following as of June 30:

	2026	2025
Cash and cash equivalents	$ 7,248,700	$ 5,554,962
Accounts receivable	633,811	866,612
Unbilled accounts receivable	1,634,365	2,813,343
Less: Board designated-privacy & security	(1,300,000)	(1,300,000)
Less: Board designated-operating reserve	(3,040,804)	(3,040,804)
	$ 5,176,072	$ 4,894,113

The Organization regularly monitors liquidity required to meet its operating needs and structures its financial assets to be available as general and program expenditures, liabilities, and other obligations become due. The Organization has several sources of liquidity at its disposal, including cash and cash equivalents and receivables. Additionally, the Organization has a $500,000 line of credit available to meet cash flow needs, which it expects to be able to renew.

In addition to financial assets available to meet general expenditures over the next 12 months, the Organization operates with a balanced budget and anticipates collecting sufficient revenue to cover general expenditures. The Organization strives to maintain liquid cash reserves sufficient to cover 45 days of general expenditures. General expenditures include administrative, program, and operating expenses.

(7) Related Party Transactions

Members of the Organization's board of directors served as key employees of a hospital organization during the year ended June 30, 2025 from which the Organization received program service fee revenues. Revenues from these organizations totaled approximately $45,500, with no receivables at year end from these organizations.

During the year ending June 30, 2026, a board member served as a key employee of the State of Vermont with another board member serving as a key employee for Blue Cross Bue Sheild of Vermont from which the Organization received revenues. These revenues totaled approximately $9,087,000 with roughly $633,000 in receivables from the organization during the year ended June 30, 2026.

(8) Concentrations

Significant customers – The Organization derives a substantial portion of its revenue from contracts with the State of Vermont, as reported separately on the accompanying statements of activities. Effective July 1, 2026, the contract was renewed for a one year period ending June 30, 2027.

Amounts receivable from the State of Vermont, including unbilled receivables, was $1,618,753 and $2,794,041 at June 30, 2026 and 2025, respectively.

Significant vendor – The Organization licenses software and outsources data hosting and related services. Total expenses related to agreements with this vendor were $238,703 and $320,020 for the years ended June 30, 2026 and 2025, respectively. Amounts due to this vendor are included in accounts payable of $19,892 and $19,313 at June 30, 2026 and 2025, respectively. The second vendor provided software licenses, data hosting, project support, and related services for the Organization's data platform. Total expenses related to agreements with this vendor were $965,366 and $782,328 for the years ended June 30, 2026 and 2025, respectively. Amounts due to this vendor included in accounts payable are $161,675 and $219,873 as of June 30, 2026 and 2025, respectively.

The Organization receives a significant portion of its funding through State contracts, which could have a significant impact on the Organization's revenue in future years.

(9) Property and Equipment

Property and equipment consist of the following at June 30:

	2026	2025
Computer equipment	$ 271,525	$ 345,237
Furniture and fixtures	7,604	14,644
	279,129	359,881
Less accumulated depreciation and amortization	(277,173)	(344,386)
	$ 1,956	$ 15,495

(10) Board Designated Funds

The Board designated funds consist of net assets without donor restrictions that the Board of Directors has chosen to hold as designated funds to be used for general operating reserve, privacy and security matters. The Board designated funds are included in the cash and cash equivalents total in the statements of financial position. Changes in the board designated net assets consist of the following for the years ended June 30, 2026 and 2025:

	2026	2025
Beginning balance	$ 4,340,804	$ 4,751,073
Contributions	-	-
Withdrawals	-	(410,269)
	$ 4,340,804	$ 4,340,804

(11) Commitments

In order to provide sustained access to software and related support to maintain the VHIE, the Organization has entered into contracts with several vendors for periods of ten months to three years. Each of these contracts can be terminated by the Organization in the event of the loss of funding from the State of Vermont. In addition, the contracts with Verato and MedicaSoft may be terminated for convenience of either party. Minimum amounts due under the contracts were $5,237,135 and $1,213,854 as of June 30, 2026 and 2025, respectively.
